

WWW.CMC-MATH.ORG

Consider other professional development opportunities by attending one of the CMC conferences. We have a conference in each region (North, Central and South). Each a little different than the others...but all are rich in information and classroom applications! Each conference has strands that center around Equity, English Language Learners, STEM, Common Core Standards and how they will look in the classroom, information regarding the new assessments, mathematics, manipulatives, pedagogy, technology... and all are attended by educators who want to be at the top of their game!

CMC-South - November 2 & 3, 2012 in Palm Springs, CA

<http://cmc-south.org>

Follow CMC on Twitter: @CAMathCouncil

**"Access and Achievement Through Students'
Common Core Mathematical Practices"**
